SALT LAKE HIGH WINS FAST GAME

In Contest Marked by Swift Plays, Granite Is Downed at Basketball.

FIRST HALF CUTS SHORT FARMERS' LIVELY SPURT

Following Their Defeat, Visitors Join in Dance and Apparently Forget 41 to 20.

ketball league Friday night the Sait Lake High school team won from the Granite High school five by a score of 41 to 20. The game was played in the high school symnasium. Two hundred and fifty rootrs were in an uproar from start to finish the contest. The game was marked

by fast plays, in which the high school boys took a decided lead. It was the first time in two years that the teams had played together.

The "Farmers" have always won in the past, but could not keep up to the swift nace set by the Red and Black team. The Granite team was greatly handleapped by the loss of the star forward. Leggroan. The high school boys took the lead from the start and maintained it throughout the contest. The first half ended with the score 22 to 11 and cut short a Granite spurt which would perhaps have added a few points to that team's total. The second half was fast. The high school boys displayed good team, work. Their quick passes completely puzzled the Granite guards. The Red and Black point gainers sprung syeral new plays which were effective and which should be point gainers in future games.

Clever at Throws

The basket throwing from the foul line by Rydalch of the high school team was the feature of the game. He made fif-teen throws out of nincteen attempts, all

teen throws out of nineteen attempts, all being clean tosses through the hoon. However, and McIntyre made several difficult baskets from the field. Ausherman of Granite was the point maker for his team, making 17 of the 20 points scored. He was clearly the Granite star. The officiating was first class throughout, there not being a single dispute. Ton Römney, formerly a high school hasket player, refereed, and Whit Ashton, a former Granite player, umpired. The high school team showed signs of the making of a snapry team and should be heard from during the series.

Chief Barlow Places Orders for Two Machines of More Powerful Type.

TESTS MADE ON B STREET

William Brewer Reaches Top of Steep Grade Traveling at 72 Miles an Hour.

Realizing the need of a more powerfu spe of motorcycle in police work, Chief of Police S. M. Barlow has placed orders or two Excelsior autocycles. The order

for two Excelsior autocycles. The order calls for immediate delivery of the machines. This autocycle, according to the motor policemen, has a great advantage over the other motor machines in that it will go anywhere.

The autocycle, embracing all the speed and the hill-climbing powers of an automobile, is the latest vehicle to be introduced on the streets of Sait Lake City. The first machine of the kind was received here. Friday, by the Bicycle Supply company.

Similar to Motorcycle.

Fail to Respond. .

Motorcycles have been in use here for some time, but when a fast trip up a hill was found necessary the machines would not always stand the test. The new machine will run up the steepest of hills with speed which an automobile cannot attain it is claimed.

Haynes says autocycles have been introduced in the police departments of many of the larger eastern cities.

The autocycle is provided with the magneto battery and does not require a running start. The magneto is so arranged that it sparks with only a slight shove of the machine. The total weight of the autocycle is 220 nounds.

SWEENEY EXPLAINS PITCHING OF FORD

Catcher Says Milwaukee Boy Can Throw "Fadeaway" With Everything Behind It.

CLASSES WORK UNNATURAL

What Artist Does With Ball is Mystery to Man Behind the Bat.

CHICAGO, Jan. 12 -- Catcher Ed Swoo ey of the Highlanders was recently asked to explzin, if possible, the reason for the wonderful pitching of Russell Ford last year. Sweeney is wintering in Chicago and is Ford's closet friend, al-though the young pitcher's home is in Milwankee. This is Sweeney's detailed

Ford's Benders Mysuly.

"He can hand up a spitter that will break in or out or straight down if he lells it to Players wouldn't believe that until a few of them stood behind me when warming up Ford, and he'd tell them which way he was going to break it. That hoy has something nobody else ins. Take it from me, he uses something outside of baseball, it's not natural what he does with that ball sometimes. I don't know what he uses, and the mean with him, but if every pitcher. what he does with that ball some-times. I don't know what he uses, and I room with him, but if every pitcher ould get it I'd never hit oop. "Russ has a younger broth pitcher, Stalli-

could get it I'd never hit 000.

"Russ has a younger brother who's a pitcher. Stallings asked him if he thought he could teach his brother to use what he does, and Russ said he could. Stallings put the boy in an exhibition game one day and they made three hits off him in five innings, using only the stuff he had himself without Russ showing him a thing. Just watch out for that boy, teo."

ing him a thing has boy, too."

Ford admits that when Sweeney was injured in the first game between the Giants and Highlanders last fall he could not pitch with his usual effectiveness. "I couldn't use the spitter with confidence," he declares, "and that let me out."
